# FRESH ART

An exhibition of the work of recent and current Art Students  
30th July — 30th August 1986

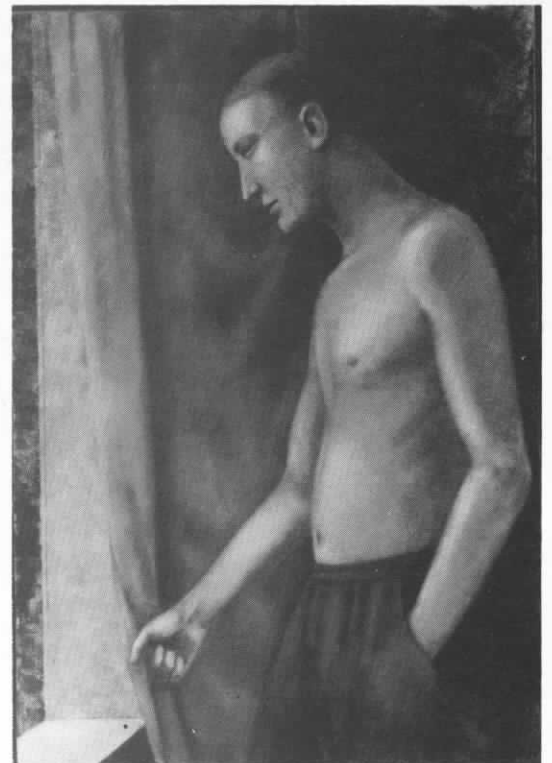

In the process of selecting this exhibition I have made 40 or so visits to 27 different Art Schools, as well as visiting studios of recent students. The Fresh Art show has 106 exhibitors, most of whom are currently at Art schools or are leaving this year. There are two first year students in the show, and fifteen artists who have been out of college between one and three years.

At the time of going to press the show includes 46 painters, 36 Sculptors, 23 Printmakers and one Ceramic Artist, as well as representatives from two Video/Time based Media Departments and one Performance Group.
